

NEHP

An Exyte Group Company

Simplifying Process Utilities

Service Solutions

Contract Fabrication

NEHP can design, fabricate, test and ship any type of process utility equipment or prefabricated assembly, for multiple industries, no matter what the intended purpose. Our skilled engineers are experienced in all of these fields. Shown here is a custom-designed, electro-pneumatic control module for a sophisticated semiconductor process tool. NEHP is the supplier of choice for this customer and have been building this sub-assembly for them for several years.

Innovative solutions
for all your **critical process** needs
